Ceramics, Inc.**

**CA3 - The Thermocouple Family
-Standard MgO and Al2O3 insulators**

OZARK offers low pricing, no minimums, and good turnaround on your custom orders, but sometimes you just want to use something from stock. We maintain a dynamic inventory of many sizes, and can usually find something available for those emergency needs or quickie tests. The list of sizes below are common trade sizes, which are usually available. There are many sizes in between that are often available on request. Just let us know your dimensional restrictions, purity requirements and quantity needed and we will determine the closest match.

"RACK" rate pricing for open stock

QUANTITY PRICE

0-9'	\$10.00/ft (no minimum!)
10-49'	\$6.00/ft (so what genius is going to buy 9 ft?!)
50-200'	\$4.00/ft (or a custom quote price if lower)

Of course, we will be glad to quote your custom sizes and specs with our usual turnaround of 3-6 weeks, with very low tool or setup costs. If you have an emergency, let us know and we can schedule it on our "fast track". Please call as early in the day as possible, and we might be able to manage a 2-5 day turnaround under favorable spec and weekday circumstances.

Thank you for considering OZARK!
